NISSAN COMMERCIAL VEHICLES WARRANTY BOOKLET

CUSTOMER SUPPORT

Your complete satisfaction with your Nissan vehicle is of primary concern to your authorised Nissan dealer and Nissan.

We will give full consideration to any query or problem that arises, either within or outside the warranty period. If a concern arises that has not been effectively handled by staff within the Nissan dealer, we would ask you to:

STEP 1

Initially contact the appropriate Department Manager within the Dealer and allow him the opportunity to respond and resolve your problem.

STEP 2

If the problem is not resolved to your satisfaction, contact the dealership General Manager, Dealer Principal or Quality Manager asking for their personal involvement.

STEP 3

If you are dissatisfied with the responses received, we would ask you to contact:

Nissan Customer Support Centre
Nissan Motor (GB) Ltd
The Rivers Office Park
Denham Way
Rickmansworth
WD3 9YS
Tel: 0330 123 1231
E-mail: gb@nissan-services.eu

The Customer Support Centre is normally open between 8.30 and 6.00 pm Monday-Friday

Alternate Dispute Resolution Process

Nissan Motor (GB) Limited subscribes to the Motor Industry Code of Practice for New Cars. If we are not able to resolve a dispute, we will refer you to Motor Codes, a Chartered Trading Standards Institute Alternative Dispute Resolution provider. They can be contacted at www.motorcodes.co.uk or 0207 344 1651.

1. NISSAN PAN EUROPE WARRANTY INFORMATION

Nissan International SA issues a warranty for each new Nissan vehicle sold, registered and operated in European countries where authorised Nissan dealers are located. Within the period of time and mileage specified in each section below, an authorised Nissan dealer will repair or replace free of charge those parts or components which are covered by the section's description and which prove defective in materials or workmanship. Parts which are excluded from warranty are listed under "what is not covered". The method of repairing or replacing is to be determined by the dealer.

1.1 NEW VEHICLE WARRANTY

New Vehicle Warranty covers all parts and components of each new Nissan vehicle supplied by Nissan which prove defective in materials or workmanship.

The duration of your New Vehicle Warranty is shown on the Warranty Certificate on page 2.

1.1a TOWING WARRANTY

During New Vehicle Warranty, if your vehicle becomes inoperative due to a warrantable defect, towing service, when necessary, to the nearest authorised Nissan dealer is covered.

1.1b TOURING ASSISTANCE

During New Vehicle Warranty, if a warrantable defect abroad takes more than six hours to repair, the Touring Assistance programme pays for a hotel room or a rental car up to a certain maximum. See page 10 for details.

1.2 PAINT WARRANTY

The Paint Warranty covers painted body parts (excluding the underbody) which suffer from paint defects as a result of defective materials or workmanship.

1.3 PERFORATION FROM CORROSION WARRANTY

The Perforation From Corrosion Warranty covers body sheet metal panels which suffer from inside-to-outside perforation from corrosion as a result of defective materials or workmanship. The period for the Perforation From Corrosion Warranty is 12 years from warranty start date for all models except Cabstar (F24), Pickup (D22), and Interstar (X70), which are covered for 6 years.

This warranty requires that the vehicle is inspected, and repaired if necessary, by an authorised Nissan dealer. Inspection and repair is required 3 years after the warranty start date and annually thereafter.

1.4 GENUINE PARTS AND ACCESSORIES WARRANTY

Nissan International SA issues a warranty for all Nissan genuine parts and accessories installed on a Nissan vehicle by an authorised Nissan dealer to be free from defects in materials or workmanship. The Genuine Parts and Accessories Warranty applies to parts purchased by the customer and installed on a Nissan vehicle by an authorised Nissan dealer and has a duration of one year from the date of installation, regardless of mileage driven. However, when the vehicle on which the part is installed is covered by Nissan New Vehicle Warranty, this warranty will not end before New Vehicle Warranty. For a customer to exercise his or her right to this warranty, he or she must provide evidence of the part installation date by means of the invoice.

2. THINGS YOU SHOULD KNOW ABOUT NISSAN PAN EUROPE WARRANTY

2.1 TYRES

Tyres, even when originally installed on new Nissan vehicles, are warranted by the tyre manufacturer. An authorised Nissan dealer will assist you in making a warranty claim for tyres if necessary.

2.2 PRE-DELIVERY INSPECTION

To make sure you will be completely satisfied with your new Nissan from the very start, it has been inspected thoroughly and prepared before delivery according to Nissan's New Vehicle Pre-Delivery Inspection Procedure.

2.3 PERIODIC MAINTENANCE SERVICE

The periodic maintenance services are a minimum requirement for warranty. They should be performed in accordance with the Nissan recommended maintenance schedule. Additional maintenance service may be required since weather and atmospheric conditions, varying roads, vehicle usage and individual driving habits greatly influence the need for such service.

2.4 SERVICE DEALER

It is recommended that periodic maintenance be performed by an authorised Nissan dealer. He will have a direct interest in your satisfaction as a Nissan customer. Nissan dealers are familiar with your vehicle and are updated regularly on each Nissan model. They are equipped and trained to provide optimum service to your Nissan vehicle.

2.5 GENUINE NISSAN PARTS AND ACCESSORIES

Genuine Nissan parts and accessories are designed by or for Nissan for use on Nissan vehicles. Using genuine Nissan parts and accessories is indispensable for safe driving and lower overall running cost. Only genuine Nissan parts and accessories are covered by Nissan's Genuine Parts And Accessories Warranty.

2.6 WARRANTY SERVICE IN FOREIGN COUNTRIES

Nissan Pan Europe Warranty is valid in European countries where authorised Nissan dealers are located. This booklet must be presented to an authorised Nissan dealer when a warranty repair is necessary, at home and abroad. Therefore it is essential that the Warranty Booklet is kept in your vehicle wherever it goes. Instructions to foreign dealers in several languages, printed on pages 11-12, may be useful when needing a warranty repair abroad.

2.7 DESIGN CHANGE

Nissan has the right at any time to make changes to the design or specifications of any Nissan vehicle without notice and without any obligation to make such changes on vehicles that have been sold in the past.

2.8 WHAT IS NOT COVERED

1. Tyres are covered by the tyre manufacturer's warranty, see section 2.1 for details.
2. Any non-genuine parts, accessories or equipment.
3. Any parts and labour cost incurred in connection with required or recommended maintenance service such as, but not restricted to, wheel balancing and alignment, engine tune-up, headlight aiming, replacement of light bulbs, spark plugs, drive belts, clutch disc, brake discs/drums, brake shoes, brake pads, filters, wiper blades, fluids or lubricants.
4. Damage, failures or corrosion resulting from:
 - ★ Misuse, accident, theft, arson or intentional damage;
 - ★ Industrial fall-out, acid or alkali contamination, stone chipping, chemical fall-out, tree sap, bird droppings, salt, hail, windstorm, lightning or other environmental conditions;
 - ★ Failure to follow the relevant guidelines given in the Owner's Manual and under the caption "what you must do" in this booklet;
 - ★ Failure to have the vehicle repaired at the earliest opportunity after a defect has become apparent;
 - ★ Lack of proper maintenance services as outlined in this booklet;
 - ★ Alteration or improper repair;
 - ★ Repairs not performed by an authorised Nissan dealer;
 - ★ Use of non-genuine parts, accessories or equipment;
 - ★ Use of improper or dirty fuel, fluids or lubricants.

5. Normal deterioration of trim, paint or other cosmetic items.
6. Any vehicle on which the mileometer has been altered or replaced so that the reading does not correspond with the actual mileage of the vehicle, without official registration on the Warranty Certificate (inside front cover of this booklet), or on which the Vehicle Identification Number and/or Engine Number have been altered or removed.
7. Incidental or consequential damages such as loss of use of the vehicle, inconvenience or commercial loss.
8. Any vehicle that has previously been involved in an incident that in Nissan's sole discretion rendered the vehicle as a total loss or which an insurer has previously decided was a total loss, because it was lost, stolen, destroyed or damaged beyond economic repair (whether or not this was your fault or the fault of the registered owner at the time of the incident).

2.9 WHAT WE WILL DO

All warrantable defects will be repaired by an authorised Nissan dealer at no charge to the customer for labour or parts within the limitations set out in this Warranty Booklet.

2.10 WHAT YOU MUST DO

1. Properly use, maintain and care for your vehicle as outlined in this Warranty Booklet and your Owner's Manual.
2. Take the vehicle to an official Nissan dealer's place of business during regular business hours at your expense in order to obtain warranty service.
3. Check for trim, paint or other cosmetic defects at the time the new vehicle is delivered and report the same to your selling dealer without delay.
4. Retain maintenance service records in the event a question should arise concerning the vehicle's maintenance. As for the Genuine Parts And Accessories Warranty, keep relevant documents and invoices of all parts installations.
5. As for the Paint Warranty and the Perforation From Corrosion Warranty, the following things must be done additionally:
 - ★ Carefully read vehicle care and maintenance instructions given in the Owner's Manual;
 - ★ Have the annual paint inspection carried out and documented on the Maintenance Record Label.
 - ★ Wash and wax the vehicle regularly; remove salt, sand, ice melting agents, road and oil tar, tree sap, bird droppings and other potentially harmful materials immediately when they are found sticking to the vehicle;
 - ★ Promptly repair any damage to the surface finish of the vehicle at your own expense.

3. NISSAN PAN EUROPE TOURING ASSISTANCE

3.1 TOURING ASSISTANCE FOR TRAVELLING NISSAN CUSTOMERS

In case your Nissan vehicle experiences a breakdown abroad, the Pan Europe Touring Assistance programme offers you either hotel accommodation or a rental car for you and your co-passengers if necessary. See 3.2 for the conditions.

3.2 WHEN CAN PAN EUROPE TOURING ASSISTANCE HELP YOU?

These are the conditions for Pan Europe Touring Assistance:

- ★ The vehicle is within New Vehicle Warranty on the day of breakdown ;
- ★ Breakdown and repair take place outside the vehicle's country of registration;
- ★ The breakdown makes a safe continuation of the journey impossible;
- ★ The breakdown is caused by a warrantable defect according to the definitions of this Warranty booklet;
- ★ Repair of the defect results in the vehicle being immobilised for more than six hours according to the repairing dealer, or the repair cannot be completed the same day;
- ★ EITHER hotel accommodation OR a rental car is covered, not both;
- ★ Hotel accommodation is for up to three nights in a 3-star hotel (or equivalent) for driver and passenger(s). GT-R qualifies for 4-star hotel (or equivalent);
- ★ Replacement vehicles is provided for a maximum of three working days* or until the repair is completed whichever is sooner.

3.3 HOW TO OBTAIN PAN EUROPE TOURING ASSISTANCE

Please adopt the following procedure when seeking reimbursement under the Pan Europe Touring Assistance programme:

1. Ask the repairing dealer to fill out and sign the Breakdown Certificate printed on page 13. On pages 11-12 you will find helpful instructions to foreign dealers in several languages.
2. Keep the originals of the repair order sheets and the hotel or rental car invoice.
3. Contact your home dealer within 30 days after the repair and submit to him the documents mentioned above. Your home dealer can then reimburse the hotel or rental car invoice actually paid by you up to the maximum amounts mentioned previously. Reimbursement will be in Pounds Sterling, using the most recent exchange rate.

* A working day is defined as Monday to Saturday inclusive, excluding Bank Holidays.

VEHICLE MAINTENANCE & SERVICE SCHEDULE INFORMATION

GENERAL INFORMATION ON SERVICING

Your new Nissan has been designed to have minimum maintenance requirements with longer service intervals to save you both time and money. However, some day-to-day and regular maintenance is essential to maintain your Nissan's good mechanical condition, as well as its emission and engine performance.

It is the owner's responsibility to make sure that the specified maintenance, as well as general maintenance, is performed.

As the vehicle owner, you are the only one who can ensure that your vehicle receives the proper maintenance care. You are a vital link in the maintenance chain.

GENERAL MAINTENANCE

General maintenance includes those items which should be checked during normal day-to-day operation of the vehicle. They are essential if your vehicle is to continue to operate properly. It is your responsibility to perform these procedures regularly as prescribed.

These checks or inspections can be done by yourself, a-qualified technician or, if you prefer, your Nissan dealer.

PERIODIC MAINTENANCE

The maintenance items listed in this part are required to be serviced at regular intervals.

However, under severe driving conditions, additional or more frequent maintenance will be required.

WHERE TO GO FOR SERVICE

If maintenance service is required or your vehicle appears to malfunction, have the systems checked and tuned by an authorized Nissan dealer.

Nissan technicians are well-trained specialists and are kept up to date with the latest service information through technical bulletins, service tips, and in-dealership training programs. They are completely qualified to work on Nissan's vehicles before they work on your vehicle, rather than after they have worked-on it.

You can be confident that your Nissan dealer's service department performs the best job to meet the maintenance requirements on your vehicle in a reliable and economic way.

GENERAL MAINTENANCE

During the normal day-to-day operation of the vehicle, general maintenance should be performed regularly as prescribed in this section. If you detect any unusual sounds, vibrations or smell, be sure to check for the cause or have your Nissan dealer do it promptly. In addition, you should notify your Nissan dealer if you think that repairs are required.

When performing any checks or maintenance work closely observe the precautions in the "Do-it-yourself operations" section of your Owner's manual.

Additional information on the following items with "★" is found in the "Do-it-yourself operations" section.

OUTSIDE THE VEHICLE

The maintenance items listed here should be performed weekly, unless otherwise specified.

Tyres ★ Check the pressure with a gauge periodically when at a service station (including the spare) and adjust to the specified pressure if necessary. Check carefully for damage, cuts or excessive wear.

Windscreen wiper blades ★ Check for cracks or wear if they do not wipe properly.

Doors and bonnet Check that all doors, bonnet, boot lid and tailgate operate properly. Also ensure that all latches lock securely. Lubricate hinges, latches, rollers and links if necessary. Make sure that the secondary latch keeps the bonnet from opening when the primary latch is released.

When driving in areas using road salt or other corrosive materials, check for lubrication frequently.

Tyre rotation ★ Tyres should be rotated every 6,000 miles (10,000 km).

INSIDE THE VEHICLE

The maintenance items listed here should be checked on a regular basis, such as when performing periodic maintenance, cleaning the vehicle, etc.

Lights ★ Make sure that the headlights, stop lights, tail lights, turn signal lights, and other lights are all operating properly and installed securely. Also check headlight aim.

Warning lights and buzzers Make sure that all warning lights and buzzers are operating properly.

Steering wheel Check for change in the steering conditions, such as excessive free play, hard steering or strange noises.

Seat belts Check that all parts of the seat belt system (e.g. buckles, anchors, adjusters and retractors) operate properly and smoothly, and are installed securely. Check the belt webbing for cuts, fraying, wear or damage.

UNDER THE BONNET AND VEHICLE

The maintenance items listed here should be checked periodically e.g. each time you check the engine oil or refuel.

Windscreen washer fluid ★ Check that there is adequate fluid in the tank.

Engine coolant level ★ Check the coolant level when the engine is cold.

Engine oil level ★ Check the level after parking the vehicle on a level spot and turning off the engine.

Brake fluid level ★ Make sure that the brake fluid level is between the "MAX" and "MIN" lines on the reservoir.

Battery ★ Check the fluid level in each cell. It should be between the "MAX" and "MIN" lines.

PERIODIC MAINTENANCE

The following pages show the periodic maintenance and servicing required to ensure good engine and emission control system performance and good mechanical condition of your new vehicle. These matters should be attended to by your Nissan dealer.

Periodic maintenance means that your vehicle will require servicing either on a time or mileage based schedule. You should arrange an appointment with your dealer whenever your vehicle reaches either the appropriate mileage or time interval. For example, for a vehicle with a 12500mile/12month maintenance schedule, the service will be due when you have driven 12500 miles OR the vehicle has been registered for 1 year, whichever occurs first.

The maintenance plan shown overleaf is based on normal vehicle usage. Depending on weather and atmospheric conditions, varying road surfaces, individual driving habits and vehicle usage, additional or more frequent maintenance may be required. Severe driving conditions are defined by:

SEVERE DRIVING CONDITIONS

- A – Driving under dusty conditions
- B – Driving repeatedly short distances
- C – Towing a trailer
- D – Extensive Idling
- E – Driving in extremely adverse weather conditions or in areas where ambient temperatures are either extremely low or extremely high
- F – Driving in high humidity areas or in mountainous areas
- G – Driving in areas using salt or other corrosive materials
- H – Driving on rough and/or muddy roads or in the desert
- I – Driving with frequent use of braking or in mountainous areas
- J – Regular driving at maximum speed

Therefore, if you drive under severe conditions, please refer to the plan shown on page 20. Your Nissan dealer can provide guidance on this issue if required.

Periodic maintenance beyond the last period shown in the tables is required at the same intervals.

PERIODIC MAINTENANCE SERVICE RECORDS

This is to certify that the work specified on the maintenance schedule has been completed.

Periodic Maintenance Service should be performed either at the times or mileages specified whichever comes first.

All records should be given to any subsequent owner of the vehicle.

NOTICE OF OWNER OR VEHICLE REGISTRATION No. CHANGE

If your name and/or address and/or registration number has been changed, or you are the new owner of a Nissan vehicle, please inform us of the changed details as soon as possible. This will allow us to inform you of any important information when appropriate. You can either:

- ★ telephone us with the information at the Customer Support Centre on 01923 899334
- ★ e-mail us with the information at gb@nissan-services.eu
- ★ complete and mail the freepost card on the next page of this booklet
